ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Compensation Committee of the Board of Directors is responsible for establishing and implementing the Company's compensation philosophy. During 2006, the Compensation Committee undertook a review of our compensation policy and programs. In this process, we retained the services of an independent compensation consultant, Towers Perrin, which provided recommendations for consideration by the Compensation Committee and the Board of Directors. The process resulted in a revised compensation policy, including an Executive Compensation Program and an Employee Compensation Program, which were each recommended by the Compensation Committee and approved by our Board of Directors. These programs and policies were continued in 2007, and an Executive Compensation Review update was prepared by Towers Perrin in September 2007. The components of this policy and programs and application to our named executive officers is discussed below.

Compensation Philosophy and Objectives

We believe that attracting and retaining human talent is a critical element of our ability to achieve our strategic goals and objectives. The labor markets in which we compete for human talent, nationally and locally, are very competitive and to be successful we believe we have to offer compensation programs that are competitive with other life science companies, large and small, that are competing for the same talent. The components of our compensation programs consist of base salary, annual merit increases, short-term incentive awards, and long-term incentive awards, and are designed to align incentives and rewards for our executives and employees with our overall business strategies, goals and objectives, and also to take into account our ability to fund these compensation programs. While our corporate goals and objectives for any year are clearly defined, our compensation programs are designed to ensure flexibility to fairly compensate executives and employees when approved business priorities and objectives change.

Management Involvement in Compensation Decisions

The annual compensation process usually begins in the third quarter of each fiscal year with a presentation by management to the Compensation Committee of a preliminary review of current trends in compensation and identification of potential issues regarding any of the components of compensation. Based upon initial feedback from the Compensation Committee, the Vice President of Human Resources or another designated member of management works with an independent consulting firm to produce an executive compensation review with recommendations for base salary, annual merit increases, short-term incentive plan compensation and long-term incentive plan compensation. Management is further involved in formal performance reviews for all officers of the Company. Following this process, in the fourth quarter management provides recommendations to the Compensation Committee for all components of compensation for executives and other employees. In December, our Board of Directors approves the maximum amount of annual merit increases, annual performance bonuses and annual stock option awards for each executive. The Compensation Committee then approves actual increases for each executive other than the President and Chief Executive Officer. Our Board of Directors approves the actual amounts of increases for our President and Chief Executive Officer.

In 2007, the Compensation Committee had three meetings. The Company's executive officers and Vice President of Human Resources are typically present at Compensation Committee meetings, except that members of management are not present during deliberations of the Compensation Committee or Board of Directors with respect to their individual compensation.

Role of Compensation Consultant

In 2006, we undertook a review of our historical compensation philosophy and policies. In furtherance of this process, the Compensation Committee engaged Towers Perrin, an outside global human resources consulting firm, to conduct a review of our compensation philosophy and practices. In this process, Towers Perrin recommended modifications to the Company's comparative group of peer life sciences companies and provided other recommendations concerning the components of our compensation program. The Compensation Committee reviewed these recommendations and recommended the adoption of a written compensation policy which was approved by our Board of Directors effective in July 2006. In addition, we engaged Towers Perrin to provide an annual executive compensation review for executive officers and other key executives of our Company. The compensation review by Towers Perrin for 2007 was completed in the third quarter of 2007. Towers Perrin provides the Compensation Committee with relevant market data and alternatives to consider when making compensation decisions for the executive officers and other key employees.

In making compensation decisions, the Compensation Committee compares each element of total compensation against a peer group of life science companies. Based upon recommendations from Towers Perrin, the Company revised its peer group in 2007. The companies comprising our peer group in 2007 were:

| | |
|--------------------------------|-------------------------------------|
| Allos Therapeutics, Inc. | Inovio Biomedical Corp |
| Ariad Pharmaceuticals, Inc. | Introgen Therapeutics, Inc. |
| BioCryst Pharmaceuticals, Inc. | Nastech Pharmaceutical Company Inc. |
| Cell Genesys | Novacea Inc. |
| Cell Therapeutics, Inc. | NeoPharm Inc. |
| Chad Therapeutics Inc. | NovaDel Pharma Inc. |
| Columbia Laboratories Inc. | Noven Pharmaceuticals Inc. |
| Dendreon Corp | PenWest Pharmaceuticals Co. |
| DepoMed Inc. | Peregrine Pharmaceuticals Inc. |
| Emisphere Technologies Inc. | Seattle Genetics Inc. |
| Enzon Pharmaceuticals, Inc. | SuperGen Inc. |
| Immunogen | Trubion Pharmaceuticals Inc. |

For comparison purposes, our market capitalization at the time of the study by Towers Perrin was between the 25th and 50th percentiles of our revised peer group. We believe we compete with members of our peer group, as well as larger companies, for top executive level talent. As such, our Compensation Policy provides that targeted levels of compensation for each of our compensation elements is as follows:

| Total Cash Compensation | | | |
|--|-----------------------------|--|--|
| Base Salary | Target Total Cash | Maximum Total Cash | Target Stock Option Equity Grant |
| 50 th - 60 th Percentile | 50 th Percentile | 60 th - 75 th Percentile | 50 th percentile (subject to dilution constraints) |

The competitive assessment provided by Towers Perrin indicated that base salary for our executive officers was at the 50th percentile, and the base salary for our other officers was slightly below the 50th percentile. The target annual bonus ranged from the 50th to the 75th percentile, and the target total cash compensation is at the market 50th percentile. The incentive compensation for 2006 awards were generally between the 50th and 75th percentiles and the 2007 targeted awards were approximately at the 50th percentile. The above illustrates that a significant percentage of total cash compensation is allocated to incentives as a result of our philosophy discussed above. We have no established policy or target for the allocation between either cash or non-cash, or short-term or long-term incentive compensation. Rather, the Compensation Committee reviews information provided by Towers Perrin to

determine the appropriate level and mix of incentive compensation. Either the Company or Towers Perrin can terminate the relationship at any time. We have not used the services of any other compensation consultant in 2007. In the future, we may engage or seek the advice of other compensation consultants.

2007 Executive Compensation Components

For the fiscal year ended December 31, 2007, the principal components of compensation for named executive officers and other employees of the Company were:

- base salary;
- annual merit increases to base salary;
- short-term incentive awards; and
- long-term incentive awards.

Base Salary.

Base salary ranges for named executive officers, as well as other officers and employees of the Company, are determined for each employee based upon his or her position and responsibility by using available market data. Base salary ranges are designed so that salary opportunities for a given position will be between the 50th and 60th percentile of base salaries payable to persons in similar positions in the Company's comparator peer group of life science companies. Executive base salaries are designed to fall at the targeted levels plus or minus fifteen percent depending upon performance, strategic importance of the position, retention needs and competitive practices.

Annual Merit Increases.

Merit increases to base salary are determined annually and are intended to take into account each employee's performance against individual and team goals and objectives. Pursuant to our compensation policy, annual merit base salary increase guidelines will be the same for all employees at all levels of the Company. The actual annual merit increase for a given executive or other employee may be higher or lower than the guideline based upon employee's performance to team and individual goals and employee's position relative to targeted salary guidelines. Following application of the annual base salary merit increase, if any employee remains outside of the competitive guidelines for base salary, a technical adjustment may be applied to bring that employee's salary in compliance with the guidelines.

Short-Term Incentive Awards.

Short-term incentive awards provide an annual bonus opportunity to reward executives and other employees for performance related to corporate, team and individual goals and objectives. As early as practical each year, the Compensation Committee recommends and the Board of Directors considers and approves, minimum, target and maximum levels for performance goals and objectives under the Company's Short-term Incentive Program (STIP). Typically, a corporate "gate", or minimum condition, is established which must be met before there can be any participation under the STIP. In addition, four or five performance goals and objectives are established with various weighting, as determined by the Board of Directors. Threshold and Maximum award levels are 50% to 150% of targeted, performance goals and objectives, respectively.

Under our executive compensation program, the target STIP award (as a percentage of base salary) is 45% for the President and Chief Executive Officer, 35% for Senior Vice Presidents, and 25% for Vice Presidents. The Compensation Committee retains the discretion to recommend that STIP

awards be paid in cash, restricted stock, stock options, promissory notes or to defer payments via nonqualified deferred compensation programs. Historically, all STIP awards have been paid in cash.

In December of each year, the Compensation Committee assesses the performance of the Company for each performance goal and objective and makes a recommendation to the Board of Directors. The Board of Directors at its December meeting approves the maximum amount payable per executive based upon the Compensation Committee recommendations, as well as the actual amount of STIP payment for the Company's President and Chief Executive Officer. The Compensation Committee approves the actual amount payable to executives other than the Chief Executive Officer based upon the President and Chief Executive Officer recommendations, and subject to the maximum amount approved by the Board of Directors.

The performance goals and objectives determined by the Board of Directors relate to the Company's strategic goals and objectives for a particular fiscal year. The corporate minimum condition or gate, typically relates to the Company's financial condition or other fundamental aspect of its strategic plan. Over the past five years, the Company has achieved performance in excess of the target level two years, but has not achieved the maximum performance level in any of the five years. Generally, the Compensation Committee attempts to set the minimum, target and maximum levels such that the relative difficulty of achieving target levels is consistent from year to year.

Because the Company's performance did not achieve all of the minimum conditions or gates set, no payments were made under the STIP for performance in 2007 to our Named Executive Officers or any other employees for the fiscal year ended December 31, 2007.

Long-Term Incentive Compensation.

The Long-Term Incentive Program (LTIP) consisting of annual stock option grants, encourages participants to focus on long-term Company performance and provides an opportunity for executive officers and other designated employees to increase their equity ownership of the Company. Stock option award levels are determined based upon market data, and vary among participants based upon their positions within the Company. LTIP stock option awards are typically approved at the Compensation Committee's or Board of Directors' regularly scheduled December meeting and are generally made effective on the last business day of December. Newly hired or promoted executives receive their award of stock options as of the last business day of the month of hire or promotion, as recommended by the Company's President and Chief Executive Officer within guidelines approved by the Board of Directors and approved by the Compensation Committee.

All stock option awards are based upon practices for similarly situated employees at other life science organizations, including those within the Company's peer comparative group. Target award levels reflect multiple perspectives, including number of shares, typical ownership levels for similar positions, and aggregate shares subject to outstanding options for dilution factors. Awards for annual performance include individual performance, strategic value of the individual and retention objectives. Target award levels for President and Chief Executive Officer are determined annually by the Board of Directors based upon Compensation Committee recommendations. Targeted award levels for our other officers are: Chief Financial Officer and Senior Vice Presidents, 40,000 shares, with a maximum award of 60,000 shares; Chief Medical Officer, 40,000 shares, with a maximum award of 60,000 shares; and Vice Presidents, 20,000 shares, with a maximum award of 30,000 shares.

Options are awarded at the closing sale price of the Company's common stock on the last business day of the month of grant, except that with respect to annual grants made by the Compensation Committee or Board of Directors in December of each year, options are granted and the option price is the closing sales price of the Company's common stock on the last business day of December. Neither the Board of Directors nor the Compensation Committee has ever granted options with an exercise price less than the closing sales price of the Company's common stock on the date of grant.

Options generally vest 25% twelve months following the vesting commencement date, with the remaining 75% vesting monthly over the next 36 months. Vesting ceases upon termination of employment. Option exercise rights continue for 90 days following termination of employment, except in the case of death or disability, in which case options are exercisable for twelve months, or termination for cause in which case exercise rights cease upon termination of employment. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to the option, including voting rights and the rights to receive dividends or dividend equivalents.

No LTIP stock option grants were made to executive officers or other employees during 2007.

Savings Plan.

The Company maintains a savings plan under Section 401(k) of the Internal Revenue Code of 1984, as amended. This Savings Plan is a tax qualified tax savings plan pursuant to which all employees, including named executive officers, are able to contribute the lesser of up to 100% of their annual salary, or the limits prescribed by the Internal Revenue Service. The Company will match 50% of the first 4% of pay that is contributed to the Savings Plan. All contributions to the Savings Plan are fully vested upon contribution. Matching contributions generally vest over a four year period.

Employee Stock Purchase Plan

We maintain an employee stock purchase plan which is intended to qualify as an "employee stock purchase plan" under Section 423 of the Internal Revenue Code of 1986, as amended, pursuant to which all of our employees, including named executive officers, may participate. To participate in the plan, an employee may designate prior to the commencement of a semi-annual offering period the amount of payroll deductions to be made from his or her paycheck for the purchase of shares of common stock under the plan, which may not exceed 15% of compensation. On each purchase date, shares of our stock are purchased automatically for each participant with the amounts held from his or her payroll deductions at a price equal to 85% of the fair market value on the purchase date.

Perquisites and Other Personal Benefits.

The Company does not provide its named executive officers with perquisites and other personal benefits that aggregate more than \$10,000 in any individual instance. Each executive is eligible to receive benefits pursuant to programs that provide for broad-based employee participation. These benefits include our medical, dental and vision insurance, long-term and short-term disability insurance, life and accidental death and dismemberment insurance, health and dependent care flexible spending accounts, business travel accident insurance, educational assistance and certain other benefits.

Employment and Change of Control Agreements.

The Company does not have employment agreements with any of its named executive officers. The Company has entered into Change of Control Agreements with its President and Chief Executive Officer and Chief Financial Officer. The Change of Control Agreements are designed to promote stability and continuity of senior management in the event of a change of control transaction. Information regarding the applicable payments under such agreements for our Named Executive officers is provided under the heading "Potential Payments Upon Termination or Change of Control" on pages 16 and 17.

Tax and Accounting Implications.

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than one million dollars that is paid to certain

individuals. The Company believes that compensation payable under its management incentive plans are generally fully deductible for federal income tax purposes.

Beginning on January 1, 2006, the Company began accounting for stock based payments, including its LTIP option grants in accordance with the requirements of FASB Statement 123(R).

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee during fiscal year 2007 served as an officer, former officer or employee of the Company. During fiscal year 2007, no executive officer of the Company served as a member of the compensation committee of any other entity, one of whose executive officers served as a member of the Company's Board of Directors or Compensation Committee, and no executive officer of the Company served as a member of the board of directors of any other entity, one of whose executive officers served as a member of the Company's Compensation Committee.

Pension Benefits/Nonqualified Deferred Compensation

The Company does not have any plan that provides for payments or other benefits at, following, or in connection with retirement. The Company also does not have a plan that provides for the deferral of compensation for any employee.

Potential Payments Upon Termination or Change of Control

As of December 31, 2007, we did not have any agreements in place which would provide for the payment of compensation to any of our Named Executive Officers upon the termination of their employment, including voluntary termination, retirement, involuntary termination without cause, voluntary termination for good reason, termination for cause, and termination due to disability or death. However, we do have agreements with our Named Executive Officers that provide compensation in the event of termination in connection with a change of control of the Company, which amounts are set forth in the tables below. The amounts shown assume that such termination was effective as of December 31, 2007, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to our Named Executive Officers upon their termination. However, the actual amounts to be paid out can only be determined at the time of such executive's separation from the Company. Under the Company's standard form of option agreements, including the option agreements entered into with our Named Executive Officers, unvested options accelerate upon the occurrence of a change of control transaction unless they are assumed by the successor entity.

Michael A. Martino

The following table shows the potential payments to Michael A. Martino, our President and Chief Executive Officer, upon his termination in connection with a change of control of the Company. Mr. Martino's Change of Control Agreement provides that, upon termination of his employment within 12 months following a Change of Control, as defined in the Agreement, either voluntarily for good reason or involuntarily without cause, the Company will pay Mr. Martino (i) accrued and unpaid base salary, (ii) declared and unpaid incentive compensation, and (iii) a severance payment equal to his highest annual base salary in effect within 12 months of termination plus the annual value of non-cash health and welfare programs (excluding 401k, bonus or any other retirement programs) multiplied by 2.99.

10b5-1 Trading Plans and Share Retention Policies

The Company has a 10b5-1 trading policy that restricts the ability of directors, executive officers and key employees to sell shares of common stock of the Company unless such sales are made pursuant to a pre-arranged trading plan approved by the Company and adopted by the director, executive officer or key employee in accordance with Rule 10b5-1 of the Securities and Exchange Act of 1934. Rule 10b5-1 allows persons who are not aware of material, non-public information to adopt written, pre-arranged trading plans. Individuals may use these plans to diversify their investment portfolios and sell shares over an extended period of time. Transactions by directors and executive officers will be publicly reported in accordance with applicable securities laws. The Company does not undertake any obligation to report the adoption of individual 10b5-1 plans.

The share retention policy establishes ownership guidelines that require directors and executive officers to retain a minimum percentage of shares granted by the Company or shares that have a minimum value relative to cash compensation. Under this policy, directors and executive officers must retain 50% of shares and vested options received from the Company as equity awards until such time as the owned shares and vested options have a fair value of at least two times the annual cash retainer for directors, three times the annual base salary for the Chief Executive Officer and two times the annual base salary for other executive officers.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions

Collaboration and License Agreement with Bayer Schering

On October 17, 2005, Sonus entered into a Collaboration and License Agreement with Bayer Schering Pharma AG, pursuant to which, among other things, we granted Bayer Schering an exclusive, worldwide license to TOCOSOL® Paclitaxel. At that time, the parties agreed to a core development program consisting of the initial pivotal trial in metastatic breast cancer, trials for additional indications and trials to support launch of TOCOSOL Paclitaxel, and agreed to share equally in the costs of the core development program. In connection with the Bayer Agreement, the Company and an affiliate of Bayer Schering entered into a Securities Purchase Agreement whereby the Company sold 3,900,000 shares of common stock for an aggregate of \$15.7 million and warrants to purchase 975,000 shares of common stock for an aggregate purchase price of \$122,000.

On October 3, 2007, Sonus received notification from Bayer Schering of its decision to terminate the Bayer Agreement in accordance with its terms because the Phase 3 pivotal trial did not meet its primary endpoint. The termination was effective on November 2, 2007. In accordance with the terms of the Bayer Agreement, all rights to TOCOSOL Paclitaxel have reverted back to Sonus. We have discontinued development of TOCOSOL Paclitaxel due to results of the Phase 3 study. These closure activities were substantially complete by December 31, 2007. Due to the termination of the Bayer Agreement by Bayer Schering, in October 2007, the Company recognized \$6.9 million of revenue in the fourth quarter of 2007, which represents the balance of the unamortized deferred revenue from the upfront license fee. During 2007, the Company recognized a total of \$11.0 million of revenue from amortization of the deferred revenue, and \$9.1 million of revenue related primarily to reimbursable Phase 3 activity through the date of termination and expenses associated with the termination of the Phase 3 trial. The Company does not expect recognition of any revenue or expense related to the Bayer Agreement beyond 2007. The final net billing between the Company and Bayer Schering was completed during the fourth quarter of 2007. Settlement of the final amount outstanding was received from Bayer Schering in December 2007. No receivables from or payables to Bayer Schering are outstanding at December 31, 2007.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Code of Conduct prohibits employees and directors from conflicts of interest with the interests of the Company, unless they have been specifically approved by the Company. In the case of employees, approval of a conflict of interest would have to be approved by the appropriate member of management. In the case of directors and named executive officers, approval of a conflict of interest would have to be approved by a majority of the disinterested directors of the Company following full disclosure. The Company does not have a specific policy concerning approval of transactions with stockholders who own more than five percent of our outstanding shares.

Director Independence

Our securities are listed on The Nasdaq Global Market and are governed by its listing standards. The Board of Directors has determined that all of the directors, except for Michael A. Martino, the Company's President and Chief Executive Officer, satisfy the current "independent director" standards established by Nasdaq Marketplace Rules.

The Board of Directors has established three standing committees: the Audit Committee, the Compensation Committee, and the Nominating and Governance Committee. Each member of these committees meets the independence standards set forth in Nasdaq Marketplace Rule 4200(a)(15).

Policy on Audit Committee Pre-Approval of Audit Services and Permissible Non-Audit Services of Independent Auditors

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services performed by the independent auditors. These services may include audit services, audit-related services, tax services and other services. For audit services, the independent auditor typically provides audit service detail in advance of the first quarter meeting of the Audit Committee, outlining the scope of the audit and related audit fees. If agreed to by the Audit Committee, an engagement letter is formally accepted by the Audit Committee.

For non-audit services, the Company's senior management will submit from time to time to the Audit Committee for approval non-audit services that it recommends the Audit Committee engage the independent auditor to provide for the fiscal year. The Company's senior management and the independent auditor will each confirm to the Audit Committee that each non-audit service is permissible under all applicable legal requirements. A budget, estimating non-audit service spending for the fiscal year, will be provided to the Audit Committee along with the request. The Audit Committee must approve both permissible non-audit services and the budget for such services. The Audit Committee will be informed routinely as to the non-audit services actually provided by the independent auditor pursuant to this pre-approval process.

The Audit Committee approved 100% of the services provided by Ernst & Young LLP described above.
