OncoGenex Pharmaceuticals, Inc. Reports Financial Results for Year End 2016

BOTHELL, WA, and VANCOUVER, British Columbia, Feb. 23, 2017– OncoGenex Pharmaceuticals, Inc. (NASDAQ: OGXI) today announced its year end 2016 financial results.

Recent Events

- In January 2017, OncoGenex, and Achieve Life Science, Inc., a privately held specialty pharmaceutical company, announced that they have entered into a definitive merger agreement under which OncoGenex will acquire Achieve in an all-stock transaction. Upon completion of the proposed merger, Achieve's stockholders are expected to own 75% of the combined company's outstanding shares and current equityholders of OncoGenex are expected to own the remaining 25% of the combined company's outstanding shares. Following completion of the merger, OncoGenex Pharmaceuticals, Inc. will be renamed Achieve Life Sciences, Inc. The proposed merger is expected to close by mid-2017, subject to customary closing conditions.
- In October 2016, the company announced positive survival results from the final analysis of the Phase 2 Borealis-2™ trial of apatersen in combination with docetaxel treatment that enrolled 200 patients with metastatic bladder cancer whose disease had progressed following first-line platinum-based chemotherapy. Patients who received apatersen treatment experienced a 20% reduction in risk of death, compared to patients receiving docetaxel alone.
- In February 2017, results from the Pacific Trial were presented at the American Society of Clinical Oncology 2017 Genitourinary Cancers Symposium. The trial randomized 72 patients who were experiencing a rising PSA while receiving Zytiga® (abiraterone acetate). Apatersen was well tolerated in combination with Zytiga with the median treatment duration of 106 days for apatersen plus Zytiga compared to 75 days for continuing Zytiga alone. The proportion of patients who were progression free at Day 60 was 33% when apatersen was added to Zytiga, compared to 17% with Zytiga alone.
- OncoGenex discontinued the development of its custirsen and OGX-225 programs and is currently seeking a collaboration partnership to further develop apatersen.

Financial Results

As of December 31, 2016, the company's cash, cash equivalents, and short-term investments decreased to \$25.5 million from \$55.2 million as of December 31, 2015. Based on current expectations, OncoGenex believes that its cash, cash equivalents, and short-term investments will be sufficient to fund its currently planned operations for at least the next 12 months.

Revenue for the fourth quarter and year ended December 31, 2016 was zero and \$5.1 million, respectively. The advanced reimbursement payment made by Teva, as part of the Termination Agreement, was deferred and recognized as collaboration revenue on a dollar for dollar basis as costs were incurred as part of the continuing research and development activities related to custirsen. The decrease in collaboration revenue in 2016 as compared to 2015 was due to the full recognition of the remaining amounts of deferred revenue in the first half of 2016.

Total operating expenses for the fourth quarter and year ended December 31, 2016 were \$6.0 million and \$26.3 million, respectively. Net loss for the fourth quarter and year ended December 31, 2016 was \$5.8 million and \$20.1 million, respectively.

As of Feb 23, 2017 OncoGenex had 30,086,106 shares outstanding.

About OncoGenex and Apatorsen

OncoGenex is a biopharmaceutical company committed to the development and commercialization of new therapies that address treatment resistance in cancer patients. The company's product candidate, apatorsen (OGX-427), is designed to inhibit production of Hsp27, disable cancer cells' defenses and

overcome treatment resistance. Hsp27 is an intracellular protein that protects cancer cells by helping them survive, leading to resistance and more aggressive cancer phenotypes. Both the potential single-agent activity and synergistic activity of apatorsen with cancer treatments may increase the overall benefit of existing therapies and augment the durability of treatment outcomes, which could lead to increased patient survival. More information is available at www.OncoGenex.com and at the company's Twitter account: https://twitter.com/OncoGenex_IR.

OncoGenex' Forward Looking Statements

This press release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including, but not limited to, statements regarding the terms, timing, conditions to and anticipated completion of the proposed merger with Achieve Life Science; the expected ownership of the combined company; the potential benefits and potential development of apatorsen; and the adequacy of cash reserves. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. OncoGenex and/or Achieve may not actually achieve the proposed merger, or any plans or product development goals in a timely manner, if at all, or otherwise carry out the intentions or meet the expectations or projections disclosed in these forward-looking statements. These statements are based on management's current expectations and beliefs and are subject to a number of risks, uncertainties and assumptions that could cause actual results to differ materially from those described in the forward-looking statements, including, among others, the failure of the OncoGenex or Achieve stockholders to approve the transaction; the failure of either party to meet the closing conditions of the transaction; delays in completing the transaction and the risk that the transaction may not be completed at all; the failure to realize the anticipated benefits from the transaction or delay in realization thereof; the success of the combined businesses; operating costs and business disruption during the pendency of and following the proposed merger; the risk that apatorsen will not receive regulatory approval or be successfully commercialized; the risk that new developments in the rapidly evolving cancer therapy landscape require changes in business strategy or clinical development plans; the risk that apatorsen may not demonstrate the hypothesized or expected benefits; general business and economic conditions; and the other factors described in our risk factors set forth in OncoGenex's filings with the Securities and Exchange Commission from time to time, including its Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.
